MESSY JORDAN

HOUSE • TECH HOUSE • BASS HOUSE DJ & PRODUCER

Messy Jordan is a House, Tech House and Bass House DJ and producer based in Florida, and the founder of the **Urban House Music** collective. A resident on **Ibiza Stardust Radio**, he has spent over a decade moving dance floors, starting with his years on Ruff Ryders Radio (2017 to 2020).

Originally from New York and a DJ since 2012, he brings a promoter's instinct and a producer's ear to every set, closing nights with high energy house that turns into a rave. His sound lives in house, tech house and bass house, with a growing pull toward Latin house.

Today that sound reaches far beyond the booth. His syndicated weekly show, **The UHM Take Over**, airs on ProSoundz Radio, DMV Fleet Radio and Fleet EDM Radio, alongside his residency on Ibiza Stardust Radio.

Off the decks, he is a builder as well: he led a marketing team for Code Astoria in New York City, served as EDM Division Manager for Fleet DJs (2024 to 2025) and remains a member of the World Wide Fleet DJs, and he still releases remixes and originals, including the single 'The Lonely Road'.
